

Exquisite Arabian Specialities

Conjure up some magic this Valentine's Day

Make your loved one's Valentine's Day a truly memorable occasion this year with an authentic Arabian olive oil burning lamp, which Terra Rossa is giving away with every Valentine's order – and for those who believe in Middle Eastern magic, the mystical genie of the lamp is ready to conjure up one of three special wishes.

The first could be a romantic evening in with a candlelit meal for two which starts by dunking and dipping Arabian style – guaranteed to get the taste buds watering as well as hearts pounding. Pour the Chilli infused extra virgin olive oil in one of the hand-made dipping bowls and Terra Rossa's authentic Zaatar herb mix in another (made primarily of Thyme, Sesame Seeds and Zesty Sumac Lemon), throw in some freshly baked crusty bread and you have a match made in heaven!

The second wish will impress your Valentine, as Terra Rossa's lovingly crafted hand-made wooden box containing one of the world's finest Sinolea cold-drip extracted extra virgin olive oils and a five year matured Balsamic Vinegar oozes with class showing that you really appreciate their discerning taste.

However, for those who want to make a flamboyant gesture, Terra Rossa's Wine & Dip Arabian Hamper is the ultimate gift wish of all. This beautifully presented hamper will arrive in an authentic Jordanian bag packed with goodies.

A bottle of the finest Jordanian wine, the repeat award-winning Basil infused extra virgin olive oil, Zaatar herb mix, Dukka Harrisia Salsa to spice up your taste buds (packed with the flavours of roasted coriander seeds, fresh chillies, tomatoes and pomegranate molasses) and to finish off, some gorgeously sweet nougat with pistachios, a heavenly sticky Rashi & Dibis spread (tahini & date molasses) and two dipping bowls.

Simply order one of the above Valentine's gifts and Terra Rossa will deliver it direct to your loved one's door, together with your own romantic message; and of course the very special olive oil lamp to light up their lives. However, don't forget to blow out the flame at the end of the evening, as it's guaranteed to be a very hot night!

Please refer to the instruction card enclosed with your free lamp for safe usage.
